Creative

Multimedia artist with two years' experience in animation, compositing, and post-production across commercial campaigns, branded content, and short films. Passionate about visual storytelling and creating polished work through collaboration, creativity, and attention to detail.

Work experience

Junior Artist

January 2023 – August 2024

Hedgehog Post Production, Beirut, Achrafieh

- Created animations and composited shots for commercials, branded content, and short films using After Effects and Adobe Creative Suite.
- Took projects from brief through to final delivery, collaborating with directors, producers, and clients to meet creative and production deadlines.
- Designed and refined animations, composites, and visual assets through multiple rounds of creative and client feedback.
- Mentored interns in After Effects and studio workflows, sharing techniques and the attention to detail needed to deliver production-ready work.
- Contributed to campaigns for Fairy, Tide, KFC, Cequens, and Hershey's, as well as films screened at Cannes and regional festivals.

Freelance

September 2024 – Current

London, UK / Remote

- Collaborated with former university classmates on freelance animation, motion design, and multimedia projects for a range of clients.
- Provided voice acting for KT1 productions on client projects including Kingston University, the NHS, and technology companies.
- Developing personal animation and motion design projects while creating online content to refine my skills and grow a creative community

Animation Intern

September 2022 – January 2023

Hedgehog Post Production, Beirut, Achrafieh

- Supported animation and asset creation for commercial projects using Adobe Creative Suite.
- Assisted the post-production team with compositing and design tasks across multiple projects.

Visual Animation Artist Intern

February 2022 – April 2022

Advert Communications, Tripoli

- Designed and animated branded visual content precisely aligned with client briefs.
- Created polished, production-ready assets using industry-standard design and animation tools.
